

colorful artificial grass

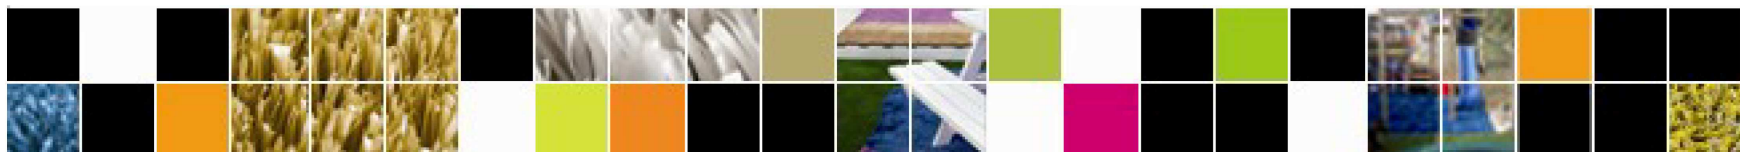

## Introduction to Colorgrass Reflexion

A new type of artificial turf in 9 sparkling bright colors. It is made of soft extremely durable fibers that are UV-, water-resistant and easy to keep clean.

*Colorgrass is the finishing touch that can be left outdoors all year round!*

## Applications

### Outdoor carpets

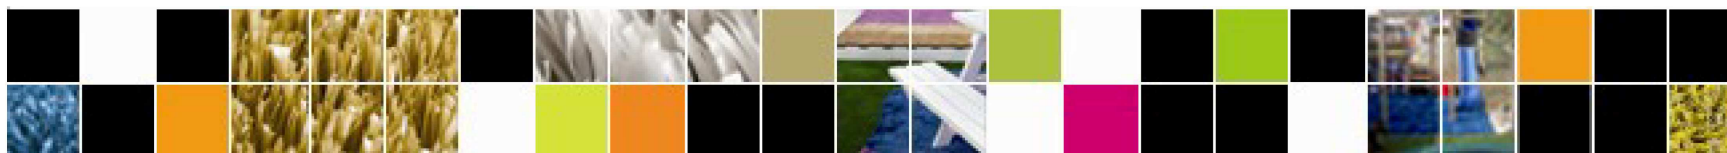

With so many homeowners expanding their living space outside, carpets that can withstand the outdoor elements are more and more in demand. Outdoor carpets helps to define your outdoor living space and create a feeling of *rooms*. Ideal for decorating a garden, terrace, balcony, patio in combination with garden furniture.

### PlayGrounds

A very important role is to support children's play and development by providing high Quality Playground products. Typical criteria for schools and parents are fall impact criteria, no need to water, longevity and safety. Colorgrass can fulfill all these requirements and the colours spice things up. Because only the best is good enough for children...

### Expo

Colorgrass can also be used for covering walls or floors on stands.

## More applications

### Swimming pools

Colorgrass is an alternative to the typical concrete pavement usually surrounding pools. With Colorgrass you create a colorful, inviting setting and provide a safe environment knowing how kids love to run and play around the pool. Feels less slippery than wet concrete.

### Municipal Landscaping

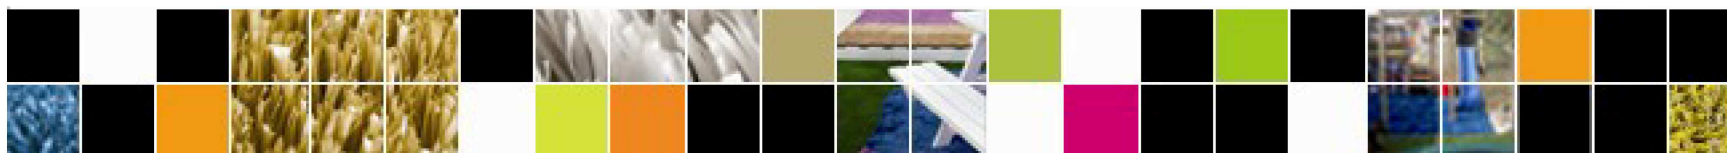

Artificial grass is a simple, effective and long lasting solution to cover most areas. Ever thought of covering a roundabout or a highway central reservation?

### Schools

Imagine an area safe for children to play in, without the worry of muddy shoes and dirty clothing. Artificial grass is perfect for a school play area or playground; it is soft, durable and looks fantastic but doesn't need any maintenance. What more could you want!

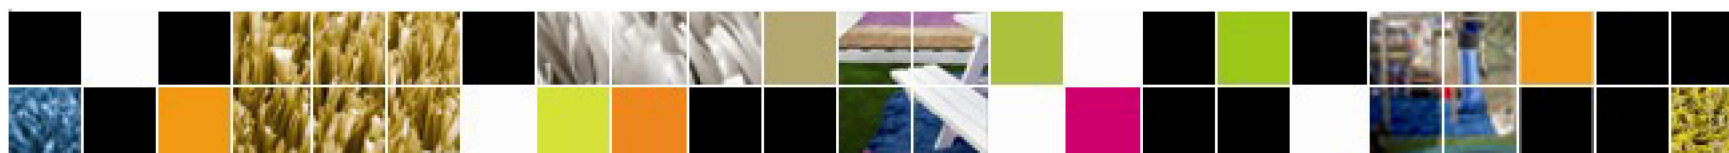

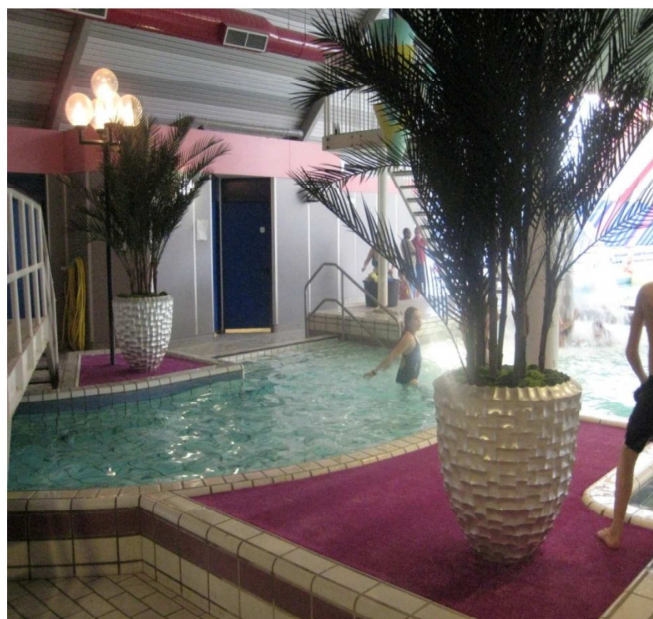

### Golf

Think of putting greens.

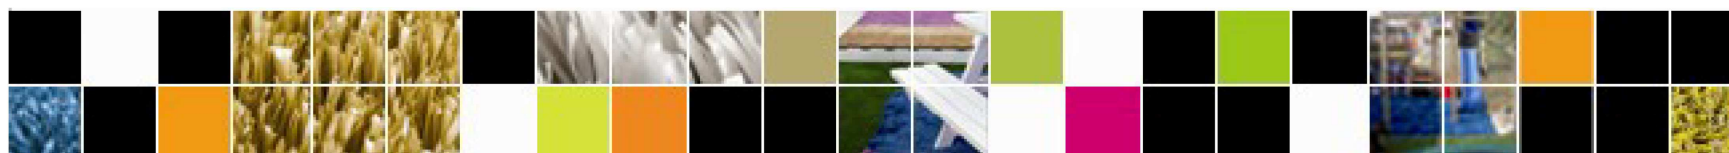

## Examples

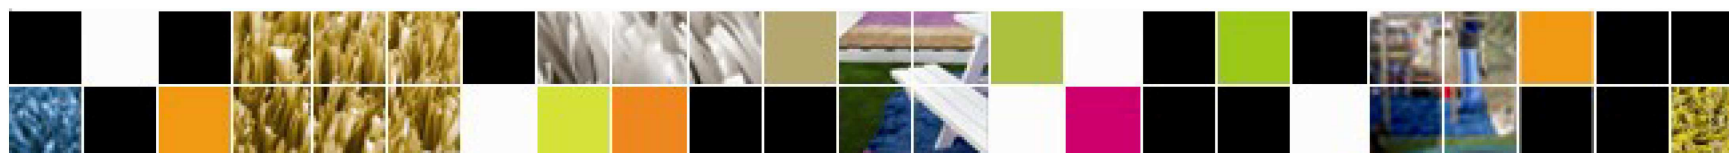

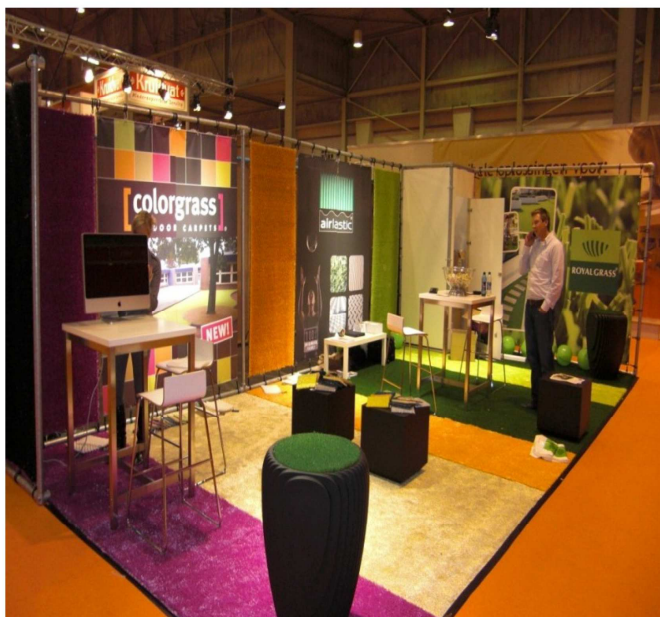

## Examples

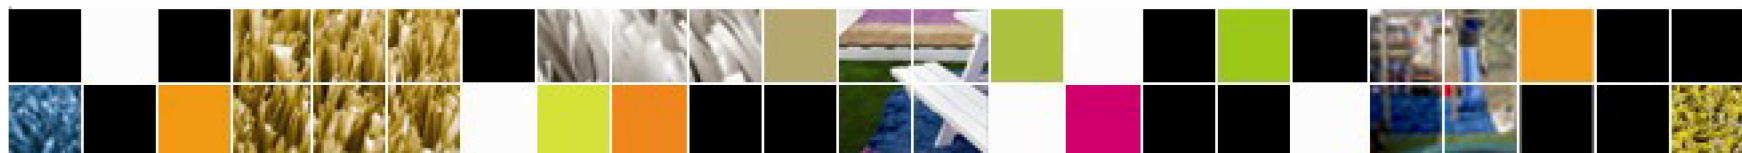

## Examples

## Technical data

- polyethylene fibrillated Thiolon LSR yarn, straight stitch pattern,
- pile height 30 mm, fiber weight 1.200 gr/m<sup>2</sup>.
- available in 9 mono colors,
- size: 2 m or 4 m width and length 20 m,
- depending on the application. For playground, schools and municipal landscaping we recommend sand infill 10 – 25 kg/m<sup>2</sup>.
